

Fiskars® Stamp Press

- Ideal tool when having a serie to repeat your design as often as needed without restarting your lay-out each time!
- 13x18cm format ideal for creating cards, menus, invitations ... as well as decorating your albums
- Wide range of transparent stamp designs

1. Features

Wide range of Fiskars® stamp designs.

Spring feet push down for a perfect image every time.

Transparent mount for perfect positioning of stamps and clear visibility.

Transparent base with grid for precise stamp alignment.

2. Handling the Stamp Press

A/ To start your creation, carefully peel the desired stamp design off the clear storage sheet.

B/ Layout stamp designs on transparent plate, aligning stamps with Grid. They self adhere to the plate easily.

C/ Apply ink to stamps.

D/ Turn the press over and press it firmly over the mount. Then restart again and again to quickly and easily create hundred of cards, invitations...

Push down the plate Remove the plate by pressing gently on its 4 spring feet.

E/ To remove your plate and storage your layout for future use, carefully press on clear "knobs".

Storage:

Store your stamp sideways to preserve the life of its spring feet.

FISKARS

3. Stamp designs

There is a wide range of Fiskars® stamp designs for every occasion. They come in clear silicone and can be easily peeled of the storage sheet.

Each set consists of at least forty different and matching patterns for using together to create exciting projects.

Storage:

Always return each stamp design to its plastic sheet for storage. Each stamp can be easily identified by its unique pattern.

Return plastic sheets to their storage case.

Cleaning:

To keep your stamps self-adherent to the plate, wash and leave them dry for further use.

4. Spare stamps designs

Stamps may be left on the plate for further use. Additional plates can be purchased separately, thus allowing you to store your stamp layouts!

5. Tips: Applying ink

Types of ink:

Create a wide range of effects... using pigment ink, chalk or paint. You can even mix different colors to create different shades on one stamp.

Adding color:

Use a damp, cloth or a cotton swab to wipe away any excess ink on the stamp to prevent it from staining a surface.
